

Brief background information

Jason Lee was born and raised in Atlanta, GA. Jason Lee graduated in 2000 from The College of Holy Cross, located in Worcester, MA. While he was there he lettered four years playing division I-A soccer. He was also a member of the Fellowship of Christian Athletes, a member of the Campus Activities Board, and a member of the Black Student Union. After finishing undergraduate work, Jason went on to pursue his graduate degree in Chemical engineering at Tufts University. While at Tufts, Jason worked closely studying Hydrogen fuel cells and the mathematical modeling of their systems. Jason was also a member of the American Institute of Chemical Engineers and well as a member of the National Society of Black Engineers.

Employment experience

Jason works for Integral Municipal Service Corporation, which is an underground utility construction company, which focuses on mostly on water and sewer line and related construction.

Community service

Member of Butler Street C.M.E. Church for 17 years, Butler Street C.M.E. Youth Church Director, Member of the young adult Council, member of the steward board.

Why are you affiliated with the Donald L. Hollowell Foundation?

The opportunities afforded me would not have been available to me if it were not for the work he had done, such as integrating schools in and around the Metro Atlanta area. I wanted to find a way to pay back in some small token the doors he opened for individuals in Atlanta.

What impact did Attorney Hollowell have on you?

Since we attended the same church, Atty. Hollowell was someone who was a mentor and role model to me. He helped to understand what it is to take responsibility for your own actions and the responsibility of to whom much is given, much is required. To this day, I live by that and attempt to give back for all the things people have done for me.

What is your objective for the Foundation?

To ensure the legacy of Attorney Hollowell is remembered for the impact he had on not only the City of Atlanta, but nationally as well by enriching the lives of the individuals around us daily.
